9:30-10:00 - Introduction

10:00-13:00 - Session 1 - Past sea-level and climatic changes as influences to prehistoric human population

10:00-10:30 - Marta Pappalardo: Refining elevation and chronology constraints for past interglacials: a Ligurian-Provençal perspective

10:30-10:50 - Alessio Rovere: Reconstructing past global mean sea levels: techniques, corrections and sources of uncertainties

10:50-11:10 - Véronique Michel: Dating of some of the Upper and Middle Pleistocene deposits of archaeological and marine interest in the Liguro-Provençal area

11:10-11:40 - Coffee break

11:40-12:00 - Mauro Cremaschi: Depositi in grotta e cambiamento climatico nel Pleistocene superiore: un approccio geoarcheologico

12:00-12:20 - Gaia Mattei: A new-technology-based approach to paleo-landscape and sea-level reconstructions: new insight on the Gulf of Naples

12:20-13:00 - Wrap up and discussion

13:00-14:00 - Lunch break

14:00-17:00 Session 2: Prehistoric cultural transitions recorded in coastal areas

14:00-14:30 - Andrea Zerboni: Reconsidering natural and anthropogenic stratigraphic sequences along the Balzi Rossi archaeological area: new contributions from geoarchaeology, geomorphology, and geochronology

14:30-14:50 - Stefano Grimaldi: Transitions and paleoenvironments from the middle-upper Paleolithic chronostratigraphical sequence of Riparo Mochi (Balzi Rossi)

14:50-15:10 - Enza Elena Spinapolice: Italian Neanderthals then and now: updates on behavioural and cultural adaptations in Southern Italy

15:10-15:40 - Coffee break

15:40-16:00 - Marcello Mannino: Cave sites along Mediterranean coasts as a source of data on prehistoric hunter-gatherer lifeways and environments

16:00-16:20 - Davorka Radovčić: Expanding our knowledge of prehistoric Eastern Adriatic mortuary practices

16:20-17:00 - Wrap up and discussion

18:00-20:00 - APERITIVO CON GLI STAKEHOLDER

Coordina: Annalisa Cevasco
